Dimensions and Weights	10

### **Features**

The 31000 Series control valve is a PFA lined, eccentric plug control valve for corrosive applications which incorporates the following features:

#### **Excellent Performance**

The eccentric rotary plug design provides excellent throttling control accuracy, low dynamic forces and tight shut off. The straight through flow pattern results in high flow capacities.

#### Corrosion Resistance

PFA lining with guaranteed minimum wall thickness provides resistance to most corrosive fluids.

#### Reduced Fugitive Emissions

The rotary design inherently reduces wear on the packing as compared to a typical linear valve. Additionally, the standard design includes PTFE/Graphite packing, chevron rings, backed-up by a double 0-ring follower to provide further reliability in corrosive applications.

Trade names noted are for reference only. Masoneilan reserves the right to supply trade named material or its equivalent.

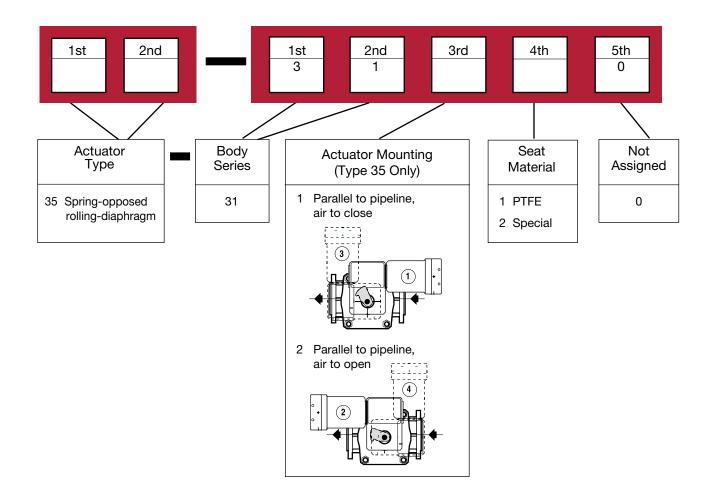

#### Ease of Maintenance

The compact dimensions and low weight design allows for easy installation and removal without compromising piping forces.

#### Reliability

The dovetail grooves provide mechanical anchoring between metal body and PFA lining to ensure high performance under vacuum and at high temperature. The powerful, field proven rolling diaphragm actuator provides positive fail-safe action. The actuator linkage is totally enclosed that comes with a combination handwheel and adjustable limit stop with locking mechanism. All actuators are available with a complete line of options and accessories.

### **Numbering System**

Note: Actuator positions  $\oplus$  and  $\otimes$  are standard configurations. View seen from actuator end. Other positions are available: consult Masoneilan.

### **General Data**

Body and Bonnet		Capacity:	Full capacity and reduced factor
Туре:	Cast, one piece, top entry,		in all sizes
	self flushing	Flow characteristic:	Modified linear
	Optional: with steam/hotwater	C <sub>v</sub> ratio:	80:1
	jacket (SJ)	Packing:	PTFE/Graphite, chevron type
Material:	Nodular ductile iron, heat treated		rings backed up by a double
Lining:	PFA, translucent, melt processed		0-ring follower
0	Optional: antistatic material		Optional: leak detector or
Connections:	Flanged		flushing connection
Bonnet connection:	Through-bolted		
Outside protection:	Epoxy coating	 Flow Direction:	Flow to close
Trim		 Actuator:*	
Plug type:	Eccentrically rotating	Туре:	Spring-opposed rolling-diaphragm
Plug materials:	PFA coated stainless steel		(Model 35)
Seat ring type:	Conical, sealed with 0-ring	Yoke:	Cast iron
Seat ring material:	Virgin PTFE		Optional: auxiliary handwheel /
Ū	Optional: other materials		limit-stop manual actuator
	(consult Masoneilan)		(Model 20)
	Optional: PFE O-ring		-
	. 5		

\* Refer to specific actuator and accessory specification literature for complete information.

### **Connections**

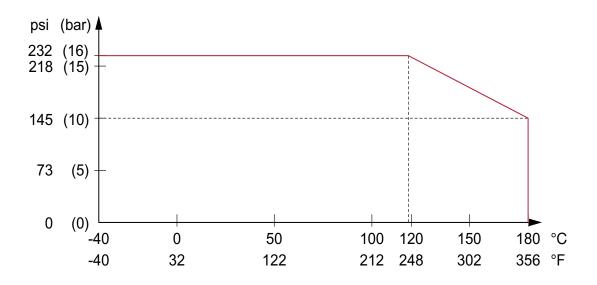

Valv	e Size	PN Con	nections	ANSI Connections			
Inches	mm	Flanges	Face to Face Dimensions	Flanges	Face to Face Dimensions		
1, 2, 3	25, 50, 80	PN 10 <sup>(1)</sup> PN 16 (125 AARH)	IEC 534-3 <sup>(2)</sup> Table II	150 RF <sup>(3)</sup> (125 AARH)	ANSI B16.10 Globe Control Valve		

1) Connections according to all standard PN (ISO, EN and equivalent national standards, AFNOR, BS, DIN, etc.)

2) Equivalent to DIN 3202/F1

3) Connections according to ANSI B16.5

### **Pressure / Temperature Rating**

Vacuum operation within the same temperature range.

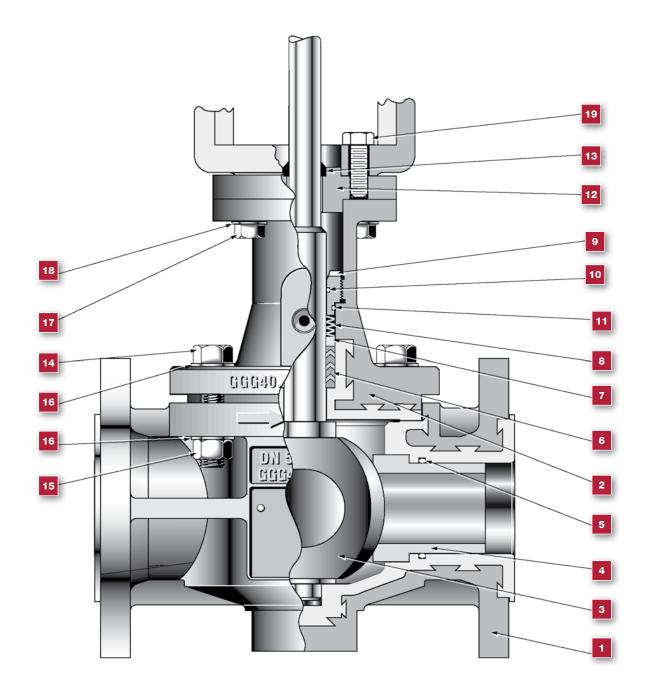

### Seat Leakage

Leakage Class VI, according to IEC 534-4 and ANSI/FCI 70.2

### **Materials of Construction**

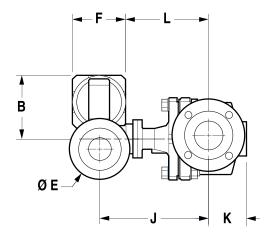

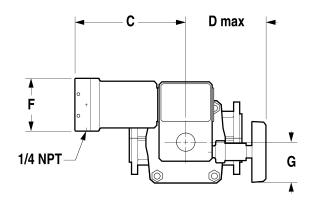

Note: leak detector or flushing connection is optional

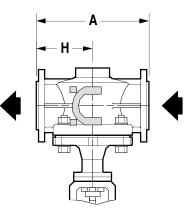

### **Materials of Construction**

Ref. No.	Description	Standard Materials (Optional Materials)
1	Body	Ductile Iron ASTM A395/PFA Lined
2	Bonnet	Ductile Iron ASTM A395/PFA Lined
3	Plug	PFA encapsulated Stainless Steel
4	Seat Ring	Virgin Solid PTFE Other Materials (Consult Masoneilan)
5	O-Ring	FEP coated Viton® Perfluoroelastomer (PFE)
6	Packing	PTFE/Graphite - Chevron Ring System
7	Packing Box Ring	Stainless Steel
8	Disc Springs (Set)	Spring Steel
9	Packing Follower	Stainless Steel
10-11	O-Rings	Viton®
12	Actuator Connecting Flange	Stainless Steel
13	Wiper Ring	Neoprene
14-19	Bolting	Stainless Steel

#### About Dresser, Inc.

Dresser Inc. is a global leader in providing highly-engineered infrastructure products for the global energy industry. Leading brand names within the Dresser portfolio include Dresser Wayne® retail fueling systems, Waukesha® natural gas-fired engines, Masoneilan® control valves, Consolidated® pressure relief valves, and ROOTS® blowers and rotary gas meters. The company has manufacturing and customer service facilities strategically located worldwide and a sales presence in more than 150 countries. www.dresser.com

#### About Dresser Masoneilan

Dresser Masoneilan, headquartered in Houston, Texas, has been the leading global partner in process control valves and solutions for more than 100 years. A business segment of Dresser, Inc., the company delivers customized products, services and diagnostic solutions for oil and gas, process and power generation applications. www.dresser.com
